Dear Sir,

As part of our efforts to maintain SIPRI's database of international military transfers (<http://armstrade.sipri.org/>), which is widely used by military industry analysts, decisionmakers etc., I want to inquire about the activities of SABIEX. Could you confirm the delivery in 2007 of 40 upgraded AML-90 / Eland by SABIEX to the government of Chad to be used in the defence against rebels invading from Sudan?

Sincerely,

Pieter Wezeman
